Los Angeles, CA – November 6, 2018 – Scientology Network’s INSIDE SCIENTOLOGY, the exclusive series that provides unprecedented access to the facilities and behind-the-scenes operations of the Church of Scientology, presents *Bridge Publications*, on November 12, 2018.

ABOUT BRIDGE PUBLICATIONS

Seventy-five million words. If you combined all the works of Plato, Shakespeare, Dickens, Tolstoy, Thomas Paine and Jefferson—and every volume of the *Encyclopedia Britannica*—it still wouldn’t add up to the number of words contained in the complete materials of Dianetics and Scientology, all authored over the course of a quarter century by one man, L. Ron Hubbard. These are the materials of the Scientology religion—the single largest body of knowledge on the mind, spirit and life. And Bridge

Publications was established for one purpose: to make these materials available to anyone, anywhere and in their native language.

This episode goes inside the award-winning publishing facility, designed from the ground up to facilitate and fulfill the ever-increasing demand for Scientology’s books and materials, including over three-thousand recorded lectures by Mr. Hubbard. It outlines how Bridge established an on-demand process to immediately fill book and CD orders of any size and in any of 17 languages.

As one of the world’s first all-digital printing facilities, Bridge pushes the limits of technology to create innovative publishing solutions. Viewers get the ultimate tour of a 21st century facility that has revolutionized digital printing.

The Scientology Network debuted on March 12, 2018. Since launching, the Scientology Network has been viewed in 237 countries and territories worldwide in 17 languages.
