ABOUT DESTINATION: SCIENTOLOGY, BIRMINGHAM

Birmingham, the second most populous city in the United Kingdom, is celebrated both for its medieval heritage and its role in launching the Industrial Revolution in the late 18th century. In this episode, *Destination: Scientology* takes you on a journey through a city with more miles of canals than Venice, sharing the rugged beauty and rich history of Birmingham. With stops at William Shakespeare’s birthplace and the sites that inspired J. R. R. Tolkien, Birmingham reflects its important cultural contributions and significance to the literary world. It is also known to music aficionados as the birthplace of heavy metal—it was home to Black Sabbath’s Ozzy Osbourne and Led Zeppelin’s Robert Plant. The legendary manufacturing and trade innovations of Birmingham, dubbed the “City of a Thousand Trades,” tie its proud past to its present, and the Church of Scientology works with its community to ensure the spirit of the city that is summarized by its motto “Forward!” never ceases.
